# Sponsorship Opportunities

Partner with us as a sponsor and connect with a growing community of pre-licensed, early-career and experienced mental health clinicians through California Pathways to Practice. This year, we're offering both an in-person symposium in California (up to 40 attendees per day, with 1-day ticket options) and a separate virtual symposium with no attendance cap—giving you the opportunity to engage with future industry leaders in multiple ways.

This is a unique chance to showcase your agency, support the professional development of emerging clinicians, and build valuable connections. Sponsorship includes exclusive benefits such as branding opportunities, direct engagement with attendees, and participation in sponsor-hosted networking sessions.

**Spots are limited, and sponsorship levels are filling quickly! Secure your place by March 31st to save 15%.**
